INFORMATION DISCLOSURE STATEMENT UNDER 37 CFR §1.97 (as amended)

In compliance with Applicant and his attorney's duty of disclosure under 37 CFR § 1.56, Applicant submits herewith documents of which he is aware and which he believes may be material to the examination of this application, and in respect of which there may be a duty to disclose.

While the Information Disclosure Statement may cite materials which are "material" to examination of the Application pursuant to 37 CFR § 1.56, it is not intended to constitute an admission that any patent, publication, or other information referred to therein is "prior art" for this invention unless specifically designated as such. In accordance with 37 CFR § 1.97(g) and (h), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR §1.56(b) exists.

The documents listed on the attached Form PTO-A820 are either patents previously issued to the inventor or are patents which have become known to the inventor prior to the filing of this application. While each reference relates to the broad general area of interest within which the present invention falls, or may disclose manufacturing techniques which might be

useful in some aspects of the present invention, it is submitted that none of the references, either taken singularly or in combination, would render the claims of the present invention obvious to one of ordinary skill in the art.

Respectfully submitted,

Garrison & Associates PS

A handwritten signature in black ink, appearing to read "William L. Haynes". The signature is fluid and cursive, with the first name "William" and last name "Haynes" clearly distinguishable.
